D.R. Horton is an Equal Housing Opportunity Builder. A D.R. Horton Smart Home is equipped with technology that includes some or all of the following Internet-connected devices: a video doorbell, programmable thermostat; a door lock; a smart light switch; a touchscreen smart home control device; home security devices such as door and window contacts and motion detectors; a garage door opener; and a smart speaker, all of which are integrated by an automation platform hosted by Alarm.com. Other Smart Home technology features may be offered for an additional charge. For Smart Home technology included in the home to work, homeowners and tenants must obtain and pay for their own Internet service and may need to purchase compatible devices and maintain accounts with third parties for the services. D.R. Horton makes no representation or warranty that any or all of the Smart Home technology is secure, will meet any homeowner needs or will provide any level of physical or cyber security for the home or otherwise- even if the technology is working as intended. All photos and drawings are for illustration purposes only. See a D.R. Horton representative for complete information.
